Policy Statement

All students at Wisdom College have the right to learn in an environment free from unlawful discrimination. Wisdom College will provide a fair and safe learning environment where all students have equal opportunities. In particular, Wisdom College will ensure that students with a disability are provided with opportunities to realise their potential through participating in education and training on the same basis as other students.

In accordance with relevant law, Wisdom College is committed, whilst students are engaging in their education, to protecting students with a disability, and students associated with a person where that person has a disability, from both direct and indirect:

- discrimination on the basis of disability
- harassment and victimisation on the basis of disability,

In accordance with the relevant law, Wisdom College will take reasonable steps to prevent unlawful discrimination, including harassment and victimisation, against students on the basis of disability in all facets of education at Wisdom College, including:

- enrolment
- participation
- curriculum development, accreditation and delivery
- student support services.

Wisdom College will make reasonable adjustments that do not cause unjustifiable hardship to ensure this equality of access and participation.

Wisdom College is committed to responding appropriately should such discrimination, harassment or victimisation occur, including possible disciplinary action. Any instances of disability discrimination, harassment or victimisation should be reported under the Wisdom College Dispute Resolution Policy.

Definitions

Disability: in relation to a person, means:

- total or partial loss of the person's bodily or mental functions
- total or partial loss of a part of the body
- the presence in the body of organisms causing disease or illness
- the presence in the body of organisms capable of causing disease or illness
- the malfunction, malformation or disfigurement of a part of the person's body
- a disorder or malfunction that results in the person learning differently from a person without the disorder or malfunction
- a disorder, illness or disease that affects a person's thought processes, perception of reality, emotions or judgment or that results in disturbed behaviour and includes a disability that:
 - presently exists
 - previously existed but no longer exists
 - may exist in the future (including because of a genetic predisposition to that disability)
 - is imputed to a person.

To avoid doubt, a disability that is otherwise covered by this definition includes behaviour that is a symptom or manifestation of the disability.

- Associate, in relation to a person: includes:
 - a spouse of the person
 - another person who is living with the person on a genuine domestic basis
 - a relative of the person
 - a carer of the person
 - another person who is in a business, sporting or recreational relationship with the person.

Direct disability discrimination: a person (the discriminator) discriminates against another person (the aggrieved person) on the ground of a disability of the aggrieved person if, because of the disability, the discriminator treats, or proposes to treat, the aggrieved person less favourably than the discriminator would treat a person without the disability in circumstances that are not materially different.

A person (the discriminator) also discriminates against another person (the aggrieved person) on the ground of a disability of the aggrieved person if:

- a) the discriminator does not make, or proposes not to make, reasonable adjustments for the person
- b) the failure to make the reasonable adjustments has, or would have, the effect that the aggrieved person is, because of the disability, treated less favourably than a person without the disability would be treated in circumstances that are not materially different.

For the purposes of this section, circumstances are not materially different because of the fact that, because of the disability, the aggrieved person requires adjustments.

Indirect disability discrimination: a person (the discriminator) discriminates against another person (the aggrieved person) on the ground of a disability of the aggrieved person if:

- the discriminator requires, or proposes to require, the aggrieved person to comply with a requirement or condition
- because of the disability, the aggrieved person does not or would not comply, or is not able or would not be able to comply, with the requirement or condition
- the requirement or condition has, or is likely to have, the effect of disadvantaging persons with the disability.

A person (the discriminator) also discriminates against another person (the aggrieved person) on the ground of a disability of the aggrieved person if:

- the discriminator requires, or proposes to require, the aggrieved person to comply with a requirement or condition
- because of the disability, the aggrieved person would comply, or would be able to comply, with the requirement or condition only if the discriminator made reasonable adjustments for the person, but the discriminator does not do so or proposes not to do so
- the failure to make reasonable adjustments has, or is likely to have, the effect of disadvantaging persons with the disability.

Responsibilities

School

Wisdom College will not unlawfully discriminate, harass or victimise a student on the ground of the student's disability or a disability of any associate of a student. The school acknowledges that its responsibilities are as follows:

- Enrolment - Wisdom College will take reasonable steps to ensure that a student with a disability is able to seek admission to, or apply for enrolment in, the school on the same basis as a prospective student without a disability, and without experiencing discrimination.
- Participation - Wisdom College will take reasonable steps to ensure that a student with a disability is able to participate in the courses or programs provided by the school, and use the facilities and services provided by it, on the same basis as a student without a disability, and without experiencing discrimination.
- Curriculum development, accreditation and delivery - Wisdom College will take reasonable steps to ensure that courses and programs are designed in such a way that a student with a disability is able to participate in the learning experiences (including the assessment and certification requirements) of the course and program on the same basis a student without a disability, and without experiencing discrimination.
- Support services - Wisdom College will take reasonable steps to ensure that a student with a disability is able to use support services used by other students of the school in general on the same basis as a student without a disability, and without experiencing discrimination.
- Harassment and victimisation - Wisdom College will develop and implement strategies and programs to prevent harassment or victimisation of a student with a disability, or a student who has an associate with a disability, in relation to the disability.

Reasonable steps will depend upon the specific circumstances at the time, but may include reasonable adjustments that do not impose an unjustifiable hardship.

When considering an adjustment for a student with a disability, any confidential information provided to Wisdom College will not be disclosed except for the purposes of the adjustment or in accordance with a lawful requirement, in compliance with the Wisdom College Privacy Policy.

Student and Employee Responsibilities

All students and employees at Wisdom College have a responsibility not to engage in discriminatory conduct, including harassment and victimisation, and to uphold the school's policies on these issues.

If students, parents or employees believe that this type of behaviour is occurring in the school, they are able to make a complaint under the Wisdom College Dispute Resolution Policy.

Implementation

Enrolment

It is important to us that we, as a school, can meet the educational needs of each child. For this reason, parents are required to complete all questions on the School enrolment form which facilitate the enrolment process and enable us to determine the resources required to meet each individual student's needs.

If a child has a disability, parents/caregivers will be asked to sign a permission form which allows the School to collect information from specialist personnel who may have information to assist in meeting the needs of their child. Specialist personnel may include the child's previous school, disability agencies, and medical and allied health professionals. The cost of providing and collecting specialist information will be met by parents/caregivers.

The collection, use and disclosure of information about a child is protected by the provisions of the School's Privacy Policy, a copy of which can be obtained from the School's website.

Identification

The level of specialist educational support required by students with disabilities is identified through the Educational Adjustment Program. This includes the collection of information from parents or caregivers, consultation with specialist personnel, including the School's learning support teacher and formal profiling procedures, if appropriate.

The collation of this information will help ascertain the student's need for adjustments to:

- Curriculum
- Communication
- Social Participation / Emotional Wellbeing
- Health and Personal Care
- Safety
- Learning Environment / Access

Based on the information gathered, the Principal or delegated staff member will make a preliminary assessment of the student's curriculum support needs, and the School's ability to meet these needs.

At this time the Principal, or delegated staff member, will meet with parents/caregivers to discuss the outcomes of the information-gathering process and to present the educational program the School can offer. This discussion may involve:

- The student, if appropriate
- Special education advisers from the Association of Independent Schools of Queensland
- Agency representatives
- Therapists, counsellors, other professionals
- An advocate
- An interpreter

It is possible at this time that the enrolment will not proceed because parents form the view that the School cannot meet their child's needs, or the School can demonstrate that the enrolment will cause unjustifiable hardship.

Education Program

On confirmation of enrolment, parents will receive an outline of the support the School can offer the student in order for them to access the curriculum successfully. This School will then begin the formal profiling process, which will include such matters as:

- The basis for the comprehensive collection of information about the needs of the student with disabilities, a list of the information collected and the significance of the information to the formation of the EAP.
- The documentation of curriculum/assessment adjustments and issues related to behaviour management (involving liaison with parents and outside agencies, as appropriate). It will outline resource requirements, including facilities and equipment, evacuation and emergency procedures, reporting requirements, and training requirements for staff or others who work with the student.
- The development of health care plans for students with health support needs.
- The generation of an Individual Education Plan (IEP).

The IEP will be reviewed at the end of each semester and at this time parents/carers will be requested to meet with the Principal, or delegated representative, in order to discuss the progress of their child.

Current Students

If it is known or suspected that a student is experiencing difficulties in accessing and participating in the curriculum and life of the School, which may be related to a disability, consultation with parents will occur.

The School will then begin the information gathering and consideration process to identify the education program the School can offer.
